

Mango Power Hybrid Inverter

The 6kW hybrid inverter built into every Mango Power M AU battery system.

Key Specifications	
Size range	6 kW
Phase	Single
Battery-ready	Yes — built-in battery pairing
Efficiency	Up to 98%
Warranty	10 years

The Mango Power 6kW hybrid inverter is the conversion half of the Mango Power M AU system — the same battery-only and PV+Battery bundle deals featured elsewhere on this site. It uses Silicon Carbide (SiC) power electronics for higher efficiency and a fast on/off-grid switchover, paired natively with Mango Power's own 28.6kWh CATL LFP battery.
